Hundreds of Boys and Girls Visit Our Toyland Every Day

Coming to Wyman's Third Floor With An Older Person

All day yesterday, there being no school, hundreds of boys and girls visited Wyman's Toyland, to see the products of the Santa Shops—and Toyland fairly screamed with the noise from so many toys—such as drums, baby pianos and talking dolls. It presented a lively scene.

Announcement was made that beginning today a Wyman warbler would be presented every boy and girl accompanied by an older person. These warblers are a great toy. They give forth a noise similar to a whip-poor-will call—in fact you can make any bird call—Here are a few things the children saw:
